**Subject:** Eliot Ballot Question

FOURTH - Shall the Town direct the Board of Selectmen, on behalf of the Town of Eliot, to petition the Environmental Protection Agency ("EPA") under authority of the Federal Clean Air Act, 42 U.S.C. Section 126, the so called "Good Neighbor" provisions, to investigate and make findings concerning possible adverse impacts on the Town of Eliot's air quality and public health caused by sulfur dioxide or other airborne contaminants emitted from the coal fired electrical generation facility known as the Schiller Station located in Portsmouth, New Hampshire.

I would say that after our conversation, it's clear to me that the residents, and perhaps the NH and ME representatives of the Sierra Club don't have a very solid idea of what exactly this petition process should entail.

Sincerely,  
Sam Evans-Brown
